GlobalTech Inc. - Employee Policy Handbook 2026

Section 1: Working Hours & Hybrid Work Model

Welcome to GlobalTech Inc. This handbook establishes our corporate standards, entitlements, and conduct rules.

1. Core Working Hours: All full-time employees are expected to be available for team collaboration between 10:00 AM and 4:00 PM in their local timezone.
2. Hybrid Work Policy: Employees in engineering, design, and operations are entitled to work remotely up to 3 days per week. Tuesdays and Thursdays are mandatory in-office anchor days for team reviews and sprint planning.
3. Overtime: Non-exempt personnel must receive prior written authorization from their department director before logging hours exceeding 40 hours per week.

GlobalTech Inc. - Employee Policy Handbook 2026

Section 2: Paid Time Off (PTO), Sick Leave & Parental Benefits

1. Annual Vacation Allowance: All full-time staff receive 25 days of paid vacation per calendar year, accrued monthly at 2.08 days per month.

2. Sick Leave: Up to 10 days of paid sick leave are provided annually. A medical certificate from a certified practitioner is required for consecutive absences lasting more than 3 business days.

3. Parental Leave: Primary caregivers receive 16 weeks of 100% paid parental leave. Secondary caregivers receive 6 weeks of 100% paid leave. Eligible after 6 months of continuous employment.

4. Carry-Over Limit: A maximum of 5 unused vacation days may roll over into the following calendar year, expiring on March 31st.

Section 3: Equipment Reimbursement & Data Security Compliance

1. Home Office Stipend: Each employee receives a one-time reimbursement of up to $1,000 USD for ergonomic desks, chairs, and monitors upon hiring.

2. Internet & Phone Subsidy: GlobalTech provides a recurring monthly allowance of $60 USD for high-speed home broadband expenses.

3. Device Security Requirements:

- All laptops must use full disk encryption (BitLocker / FileVault).
- Multi-Factor Authentication (MFA) is strictly mandatory on all corporate accounts.
- Client and proprietary code must never be uploaded to unapproved public AI tools or personal storage without written approval from the CISO.
